

KNOW WHO YOU'RE WORKING WITH

C H I N A S U P P L I E R V E R I F I C A T I O N

Every year buyers lose millions of dollars in lost funds and botched orders because they don't verify the identity of companies that they have found on-line, or otherwise have little business history with. Through China Supplier Verification Services there is a low-cost and effective way to prevent this from happening to you. Within 3 working days you will have the answers to the following:

- Does the company/supplier you are working with actually have a registered company, and what is their credit and business standing?
- What would be the best way to make and receive payment from this company - by L/C? by W/T? What are the true registered bank accounts of this company, and who are its principals?
- Is the company you are working with an actual manufacturer, trading company, or possibly a shell company with no real assets? What type of import/export licenses do they hold and how have they historically conducted import/export operations?
- Were you to be involved in a dispute with this company, what would be your legal rights in China and internationally? How could you go about recovering losses and what are your real chances of recovering those losses?

This service is provided in partnership with long established Chinese law firm:

Jin & Partners Law Firm
63F, Diwang Tower, Shennan Rd,
Shenzhen, China
